Professional Summary

Full Stack Developer with hands-on experience building modern applications using **React.js** on the frontend and **Java with Spring Boot** on the backend. Skilled in designing **RESTful APIs**, developing **functional components**, and applying **state management** and **CSS styling** best practices. Knowledgeable in **PostgreSQL**, CI/CD pipelines with **GitLab**, and working within collaborative Agile teams. Currently contributing to distributed industrial systems at **Vallourec**, with a strong focus on code quality, testing, and scalable architecture. Pursuing a Bachelor's degree in Software Engineering at PUC Minas (expected 2026).

Professional Experience

Software Development Intern,

Vallourec Tubular Solutions 

Oct 2023 – Present

Belo Horizonte, Brazil

- Developed backend services and REST APIs using **Java Spring Boot** in a distributed microservices environment.
- Built and maintained frontend applications with **React.js**, leveraging functional components and scoped CSS styling.
- Worked with **PostgreSQL** for data persistence and queries in backend services.
- Contributed to internal **UI libraries** and **design system** components for consistency across applications.
- Participated in Agile team rituals, version control with GitLab, and implemented **CI/CD pipelines**.
- Ensured code quality and observability using **SonarQube**, **Prometheus**, and **Grafana**.

IT Intern - IT Analyst, Instituto Plástica Dei

Mar 2023 – Sep 2023

- Provided technical support and assisted in the implementation of hospital systems, contributing to the organization and optimization of processes across various departments.
- Experience in IT infrastructure, including network and device maintenance.
- Responsible for website development and support for the institution's digital marketing strategies.

Marketing Assistant, DM Créditos

Nov 2019 – Sep 2022

- Experience in customer service and digital content creation for social media, alongside the development of digital marketing campaigns, including email marketing and paid traffic.
- Creation of visual materials using Photoshop, Illustrator, and Canva.
- Website development using WordPress.
